In the end, it was ridiculously simple To export a GarageBand project in just a few simple steps:Open or create the audio file that you want to exportFrom the GarageBand menu, select ShareFrom the drop-down menu, select Export Song to Disk to open the Export dialogueProvide a name for the fileSet the save to locationSelect MP3 as the formatSelect a bitrate, remembering that the higher the quality, the larger the fileClick Export to save the file.. OS X Automation: Automator Basically, you need to create an Well, in the interests of full disclosure, that was what led me to this article.. There were only about 20 seconds of voice over, certainly not a masterpiece, but it took me ages to find how to save it as an MP3.. Have you spent days creating a GarageBand masterpiece and now that you are ready to share it with friends and family, you can't find how to convert it to an MP3 format?There is, but you will need to learn how to use the software called "Automator" on your mac.

how to import files into garageband
